Table 1 shows that, when comparing YOY MTGR changes, the largest contribution came from unclassified establishments, which posted a YOY increase of \$1.3M. Professional, scientific, and technical services show a negative MTGR in Q2 FY26. This could be due to amended tax filings with NM TRD.

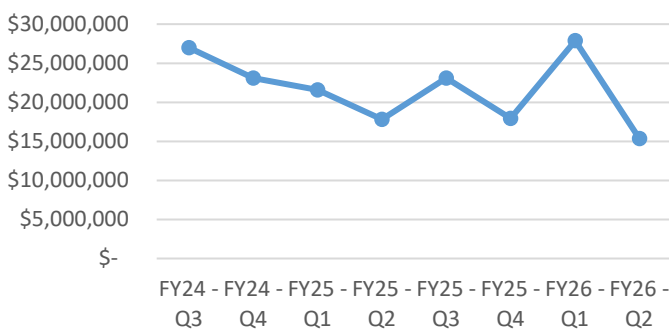

Average employment decreased by 1.4%, or 321, in Q1 FY26 compared to Q1 FY25. Average weekly wages experienced a YOY increase of \$60, representing a 3% growth. Chart 6 on page 3 indicates that the number of establishments grew by 1.5% YOY, resulting in a total of 610 establishments in Q1 FY26.

An **establishment**, as defined by the Quarterly Census of Employment and Wages (QCEW) and referenced in Chart 6, is an economic unit, such as a farm, factory, or store, located at a single physical address and engaged in one type of economic activity.

Gross Domestic Product (GDP) measures the value of all goods and services produced within a specific area. Changes in GDP from one period to another are important indicators of how the economy is performing. Chart 7 illustrates the YOY percentage change in real GDP for calendar years. Table 2 below details the percentage contribution of each industry to the total GDP for a specific county and how each industry's GDP changed compared to the previous calendar year.
