

Quarterly Economic Summary

Mora County

Released: January 2023

Prepared by: Joel Salas, Economist; Ryan Eustice, Economist

Chart 1. Matched Taxable Gross Receipts Per Quarter

In the first quarter of FY23, 25 of 33 counties saw significant year-over-year economic growth. Statewide economic activity showed broad growth across most industry sectors, with oil and gas and construction leading the growth in gross receipts over the prior year. Concerns like interest rates and inflation have continued, leaving consumer confidence declining on the national level. Despite these concerns, New Mexico has had continued growth, with record-breaking gross receipts.

Mora County's matched taxable gross receipts (MTGR) increased by nearly \$11M or just over 73% from Q4 FY21 to Q1 FY23, as seen in Chart 1. The amount of MTGR reported during Q1 FY23 (\$25.8M) is \$10.7M more than the eight-quarter average reported for Mora County (\$15M). As seen in Chart 2, the largest industry as a percentage of MTGR was the construction industry, which accounted for 36% of the total MTGR during Q1 FY23.

Chart 2. FY23 - Q1 Industry Size by Matched Taxable Gross Receipts

Matched Taxable Gross Receipts (MTGR) are the best tax data available to show underlying economic activity. The data collection process matches a tax payment with reported receipts for each taxpayer by industry.

Transportation and Warehousing	\$ 1,479,878	\$ 1,041,796	238%	501%
Unclassified Establishments	\$ 307,538	\$ (35,080)	-10%	3376%
Utilities	\$ 813,867	\$ 18,617	2%	6%
Wholesale Trade	\$ 871,368	\$ 311,945	56%	253%
All Industries	\$ 25,828,662	\$ 7,198,756	39%	128%

Table 1 shows that 13 industries reported a year-over-year (YOY) increase with the largest reported increase coming from the construction industry. The construction industry reported a YOY increase of \$7.7M or 479%. Despite this large increase, the manufacturing industry reported a YOY decrease of \$5.7M. The amount of quarterly gross receipts taxes (GRT) collected during Q1 FY23 (\$472K) was 101% more than the amount collected during Q4 FY22 (\$235K), as seen in Chart 4. This quarterly increase in GRT collections has continued the upward trend for Mora County.

Quarterly Economic Summary

Mora County

Chart 6. Establishment Year Over Year % Change

An **establishment**, as used in the QCEW and subsequently Chart 6 and Table 2, is an economic unit, such as a farm, factory, or store, which produces goods or provides services at a single physical worksite and engaged, predominantly, in one type of economic activity.

Gross Domestic Product (GDP) is the value of all goods and services produced in an area. The percentage that GDP grew (or shrank) from one period to another is an important indicator as to how the economy is performing. Table 2, below, shows the percentage of GDP each industry accounts for in the total GDP, in a specific county and the state. The chart also compares the county to the entire state of New Mexico, by showing the impact of specific industry sectors on the county's GDP compared to that of the whole state.

Chart 7. Calendar Year % Change In Real GDP Year Over Year

Table 2. Historical Glance: 2021 Gross Domestic Product by Industry

Industry	2021	Industry % of Total	2020-2021 Growth	YOY % Change
